Saturnian I Sport, Inc.'s inspiration began as I spent hours as a child learning with my inventor father. This experience led me to invent and develop products that would encourage safe and fun play. Now celebrating our twenty year anniversary, Saturnian I continues to take pride in our award-winning toys. We have received *Sport's Illustrated for Kids* Best in Sports Award, numerous awards from the *Lion and Lamb Project* (Top Twenty Toys for Peaceful Play), *Parenting Magazine* and Gold Seal Awards from the *Oppenheim Toy Portfolio*.

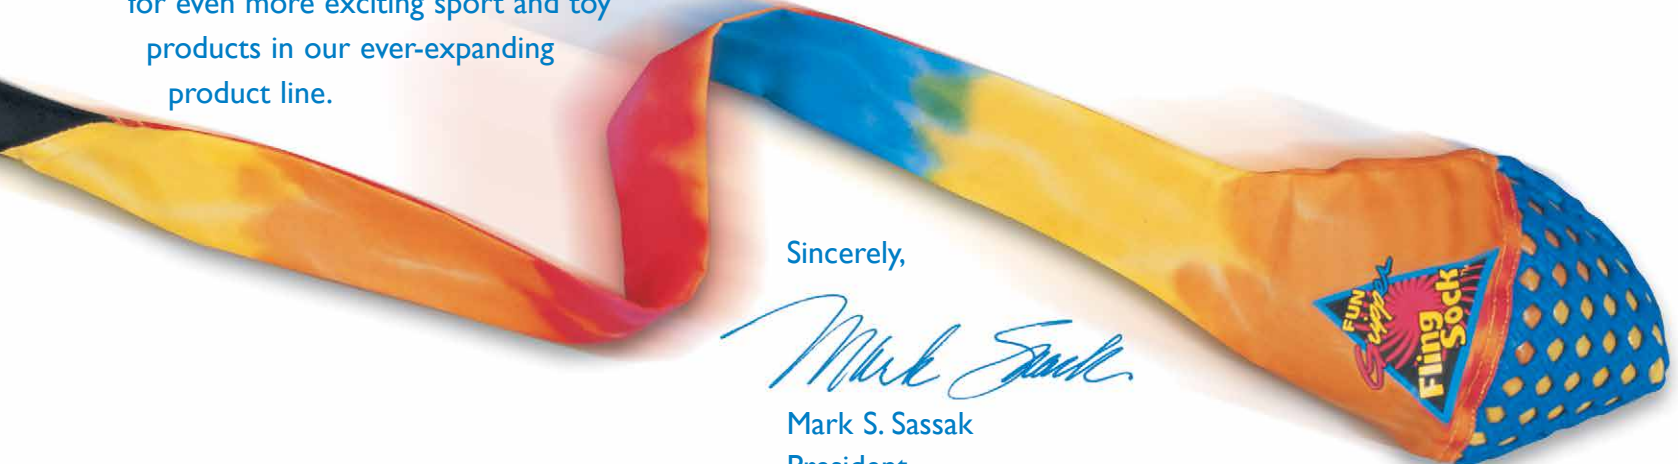

©

Safety, quality, and fun – these go hand-in-hand in every Saturnian I product. Adults buy Saturnian I sport products and toys for their safety and quality; kids want them because they're fun and cool. Look to Saturnian I for even more exciting sport and toy products in our ever-expanding product line.

Sincerely,

Mark S. Sassak
President

FUN Gripper™ Balls

As one of the country's suppliers to schools and physical education departments, distributors and retailers agree that Saturnian I Sport, Inc. "possibly has the world's easiest balls to grip". One touch is all it takes to understand why Fun Gripper™ sport products and toys are so enthusiastically played with by kids of all ages. There has never been a series of balls that are easier to hold, throw or catch. Achieving these objectives while producing a quality product that stands up to institutional use requires the layering of three distinctly different materials:

Go long!

This technology, soft durable construction, and vibrant colored materials make grasping, throwing, tossing, flinging, and catching easy and secure for the smallest hands. It adds an extra level of control and confidence that children have never experienced with other active products. It's made Saturnian I sport products and toys among the safest, highest quality, and most desirable for kids and their parents.

Football

Once you pick up a Fun Gripper™ Football, you won't put it down. Its mega grip patented surface and unique, durable composite materials make it ideal for small or large hands. Perfect spirals are the rule for this soft ball that makes football non-threatening and safe for team sports or

active play for all ages. Flies further and catches easier than foam footballs. Butyl bladder with standard inflation valve for maximum air retention.
